Units at Vita at Grove Isle, Florida, are on the market

CMC Group is officially launching [Vita](#), a 65-unit condominium on Grove Isle in the waters off Coconut Grove in Florida. Designed by CallisonRTKL, the five-story building is headed for completion in winter of next year. Its curved exterior mimicks the contours of Grove Isle itself, one of the most tranquil and secluded spots in Miami.

In addition to enjoying unobstructed views from the last waterfront parcel on the island, residents will have access to lighted tennis courts, a gourmet restaurant, air-conditioned private garages, and other amenities. Residences are priced from \$5 million, with a dozen two-story penthouses sporting private swimming pools and rooftop terraces starting at \$10 million.
